

Ecology

Go to the [Global Invasive Species Database](#)

- Search for 6 invasive species in the Spanish peninsula. Try to have at least one plant, one insect and one vertebrate.
- Make an infographic with a map of Spain and include, briefly the following points.
 - a general description
 - their distribution
 - a habitat description
 - the effect on the local ecosystem
 - include an image of each of the species.
- Use the website [easel.ly](#) for you infographic.
- Send the infographic to your teacher when you are finished.
